

“The tool that meets our expectations and has improved our effectiveness.”

“We were looking for an app to control project time and assign hours to projects and differentiate between billable and non-hours to clients. We needed to be able to assign hours to each client, each project, and each worker. It was crucial to have budgetary control of our projects” says Fernando González Miguel, MSc Industrial Engineer at Inova Ingenieros. And he added:

“We had just implemented Microsoft Teams in our company. Each channel of Microsoft Teams is considered as a project and therefore it is important for us to have a fully integrated tool with Microsoft Teams like Klynke.”

At a glance

Customer: Inova Ingenieros

Website: <https://www.inovaingenieros.com/>

Customer size: Small (1 - 49 employees)

Country: Spain, Zaragoza

Industry: Professional Services

Products and services: Microsoft 365 & Teams

Klynke ehf., Inova Ingenieros, and Microsoft 365

— Customer challenges

Inova Ingenieros founded 2001 in Spain.

Industry: Engineering and industrial architecture consultancy. *"After several weeks researching and testing different tools, we decided to use Klynke. It's easy to assign hours and track time, create new projects and allows to distinguish between different types of tasks to be carried out within the same project. Klynke has met our expectations, allows us to control project times and improve efficiency"* Fernando González Miguel MSc

— Partner solutions

Inova Ingenieros was looking for a tool that was fully integrated with Microsoft 365 and decided to use Klynke. They benefit from the feature of Klynke to turn Microsoft Teams channel into project space integrating Microsoft Planner tasks and adds time tracking features to Microsoft 365. The seamless integration with Microsoft 365 and the easy Klynke classification of tasks for different types of work within the same project helped Inova to meet their goals.

— Customer benefits

Customers can save time and benefit from the seamless integration with their Microsoft 365 subscription. Easy time tracking on teams and projects, Microsoft Outlook Calendar Events, and Planner Tasks. The solution increases business process efficiencies like Fernando González Miguel at Inova Ingenieros says:

"Overall, Klynke has met our expectations and has allowed us to control project times and improve our effectiveness and efficiency easily and effectively."

Save time and turn your Microsoft Teams Channel into a project space for time tracking with Klynke. You can custom filter your timesheets and export them to Microsoft Excel ready for billing.

Instant overview of time with actual time vs. estimated time on time spent on teams and projects. *"It was crucial to be able to have budgetary control of the projects"* Fernando González Miguel MSc.

Klynke is meeting the need of today's workers who have Microsoft Teams installed on their mobile phones, tablets, etc. Working from home, on the go, or hybrid, Klynke provides full flexibility.
